

MOZART™

Inspired by the composer, Mozart combines power with grace in both form and function. Many who have experienced it feel that Mozart embodies the leading edge in modern loudspeaker design. Drawing upon the latest technology, Mozart presents a compact silhouette of unsurpassed beauty and purpose.

While its slim, elegant cabinet gracefully blends into even the finest decor, the narrow front baffle disguises a cabinet of substantial volume. This allows Mozart to produce the warmth and power of a very large speaker. The sonic benefits of a narrow front baffle include reduction of early reflections and edge diffraction, resulting in outstanding imaging and openness.

Perhaps the most memorable aspect of Mozart's reproduction is the manner in which the human voice is reproduced. Using lightweight, transparent XPP cones emphasizes speed and delicacy, allowing nuance and intimacy to develop. Further, doubling up the bass drivers in two dissimilar cabinet volumes provides for truly deep bass extension. Finally, the lovely sound of silk reproducing the highest frequencies imparts a sweetness and resolving power bettered only by the live experience.

As a final touch, Mozart features a hidden chamber within the base of the cabinet that may be filled with sand for added mass. The resulting sound demonstrates improved clarity and refinement. Naturally, machined metal spikes are included for additional stability.

Mozart: Refinement in a robust, fullblooded loudspeaker with astonishing transparency and power. Class leading appearance and deceptively compact dimensions, finished to furniture grade standards.

Impedance	6 Ohms
Frequency Response	35 - 22000 Hz
Sensitivity	90 dB
Recommended Amplifiers	30 - 200 Watts
Drive Units	
5.5" Mid-Woofer	XPP Cone
1.1" Dome-Tweeter	Silk Dome, hand-coated
Bass System	Bassreflex
Bass Function	QB 3 (Quasi Butterworth)
Crossover Components	
MKP Capacitors	Air Coils 0,7% tol.
Metal Film Resistors	2% tol., inductance free
Crossover Function 2- way	9/12 dB Bessel
Weight per Pair	88 lbs
Dimension (W x H x D)	6,7 x 37 x 11,6"
